Management Discussion and Analysis as of November 3rd, 2014

Certain statements in this report may constitute forward-looking statements that are subject to risks and uncertainties. A number of important factors could cause actual outcomes and results to differ materially from those expressed in these forward-looking statements. Consequently, readers should not place any undue reliance on such forward-looking statements. In addition, these forward-looking statements relate to the date on which they were made. See notes to the financial statements regarding going concern, commitments, contingencies, legal matters, and other matters, which could materially affect the Company's future business, results of operations, financial position and liquidity.

This Management Discussion and Analysis ("MD&A") should be read in conjunction with the unaudited condensed interim financial statements for the period ended September 30, 2014 and the audited financial statements for the period from incorporation to December 31, 2013 and the notes contained therein, of Decisive Dividend Corporation (the "Company"). This MD&A covers the period ended September 30, 2014 and the subsequent period up to the date of filing.

The unaudited condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB"). The unaudited condensed interim financial statements follow the same accounting policies and methods of application as our most recent audited financial statements and do not include all of the information required for full audited financial statements. All amounts are expressed in Canadian dollars unless otherwise noted. Readers are encouraged to read the Company's public information filings on SEDAR at www.sedar.com.

Corporate Overview

Decisive Dividend Corporation (the "Company") was incorporated under the British Columbia Business Corporations Act on October 2, 2012. The Company is classified as a Capital Pool Company as defined in Policy 2.4 of the TSX Venture Exchange (the "TSXV" or "Exchange") Corporate Finance Manual ("CPC Policy"). The principal business of the Company is to identify and evaluate assets or businesses with a view to potentially acquiring them or an interest therein by completing a purchase transaction, by exercising of an option or by any concomitant transaction. The company is actively pursuing specific acquisition targets and is incurring advisor fees related to investigating targets of interest. Management continues to actively pursue acquisitions. The purpose of such an acquisition is to satisfy the related conditions of a qualifying transaction under the CPC Policy.

The Company's shares commenced trading on the TSX Venture Exchange under the trading symbol "DE.P" on September 23, 2013.

On September 19, 2013, the Company completed its IPO for the issuance of 1,500,000 common shares at a price of \$1.00 per common share for gross proceeds of \$1,500,000. The agents to the offering have received a commission of 8% of total proceeds resulting in a total commission of \$120,000. In addition, the agents were paid a corporate finance fee of \$12,500 and were reimbursed for their disbursements in the amount of \$3,468. Legal costs associated with the financing incurred were \$35,328. As a result, the total cash costs related to the offering were \$171,296. In addition, the agents were granted 120,000 agents' options, at a price of \$1.00 per common share, which may be exercised for a period of 24 months from the date of listing of the common shares on the TSXV.

The Company is a “Capital Pool Company” (“CPC”), as defined in TSX Venture Exchange (the “TSXV”) Policy 2.4 - *Capital Pool Companies*, and accordingly, is restricted with respect to the amount and types of compensation that it is authorized to pay to related parties. Specifically, the Company is not permitted to pay any remuneration to its directors and officers, other than through the granting of incentive stock options.

On December 18, 2012, the Company granted stock options to directors and officers of the Company to purchase 41,300 common shares at \$1.00 per share, and on April 25th, 2013 a further 11,800 stock options were issued to two new directors, under the same terms. On September 24, 2013, a further 130,000 options were issued to nine directors under the same terms as the prior two tranches of options, and on November 13, 2013, a further 10,000 options were issued to a director under the same terms as the prior three tranches of options. The options may not be exercised until the Company has completed its Qualifying Transaction.

Overall Performance

The Company has no active business at this time. The ability of the Company to continue to operate as a going concern is dependent on its ability to ultimately operate its business at a profit. To date, the Company has not generated any revenues from operations and may require additional funds to meet its obligations and the costs of its operations. As a result, further losses are anticipated prior to the generation of any profits. As at September 30, 2014, the Company had an accumulated deficit of \$291,366.

During the quarter ended September 30, 2014, the company actively pursued specific acquisition targets and incurred advisor fees during the quarter related to investigating these targets of interest. Management continues to actively pursue acquisitions.

Trend Analysis

The business of the Company entails significant risks.

Until the completion of a Qualifying Transaction (a “QT”), operations of the Company will be limited to the identification and evaluation of assets or a business and once identified or evaluated, to negotiate an acquisition or participation in a business. The completion of any such transaction will be subject to compliance with applicable TSX-V rules.

The Company's future capital requirements will depend on many factors, including its ability to complete a QT, competition and global market conditions. The Company's potential recurring operating losses and working capital needs may require that it obtain additional capital to operate its business. Such outside capital may include the sale of additional common shares or debt financing.

There can be no assurance that capital will be available as necessary to meet these continuing development costs or, if the capital is available, that it will be on terms acceptable to the Company. The issuances of additional equity securities by the Company may result in a significant dilution in the equity interests of its current shareholders.

The continuation of the Company is dependent upon the successful completion of the Company's QT, continued financial support of shareholders, its ability to raise capital through the issuance of its securities, as well as obtaining long-term financing. As at September 30, 2014, the Company had cash of \$1,459,068.

Additional Disclosure for Venture Issuers With-out Significant Revenue

The business of the Company entails significant risks, and an investment in the securities of the Company should be considered highly speculative. An investment in the securities of the Company should only be undertaken by persons who have sufficient financial resources to enable them to assume such risks. The following is a general description of all material risks, which can adversely affect the business and in turn the financial results, ultimately affecting the value of an investment in the Company.

The Company has no significant revenues. The Company has limited funds.

There is no assurance that the Company can access additional capital.

There is no assurance that the Company will be successful in locating a QT and, once located, completing a QT.

Certain of the Company's directors and officers serve as directors and/or officers of other public and private companies and devote a portion of their time to manage other business interests. This may result in certain conflicts of interest.

The Company has a history of operating losses and may have operating losses and a negative cash flow in the future.

Investment in the Company is highly speculative due to the proposed nature of the Company's business and its present stage of development. The Company was only recently incorporated and has no active business or assets other than cash. The Company does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends, until it completes a successful QT.

There can be no assurance that an active and liquid market for the Company's Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until completion of a Qualifying Transaction, the Company will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction.

There can be no assurance that the Common Shares will trade at prices which reflect the underlying value of the Common Shares from time to time. Accordingly, the underlying value of the Common Shares may differ from the trading price of the Common Shares and such difference may be material. In addition, some reporting services and brokerage firms report the last bid price of publicly traded securities as the "market price" of such securities. Where there is a lack of substantial liquidity in publicly traded securities, the bid price may be significantly below the last trading price of the securities.

Off-Balance Sheet Arrangements

There are no off-balance sheet arrangements.

Related Party Transactions

There were no related party transactions during the period.

Critical Accounting Estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates on the resulting effects of the carrying amounts of the Company's assets and liabilities are accounted for prospectively.

All of the Company's significant accounting policies and estimates are included in Note 3 of its financial statements for the six month period ended September 30, 2014.

Future Changes in Accounting Policies

Recent accounting pronouncements

- a) Accounting standards issued and effective January 1, 2015

IFRS 9, *Financial Instruments*, replaces the current standard IAS 39, *Financial Instruments: Recognition and Measurement*, replacing the current classification and measurement criteria for financial assets and liabilities with only two classification categories: amortized cost and fair value.
